

Consolidated PV Renewable Energy Declaration

[Device Owner] _____ wishes to receive renewable energy certificates for the Photovoltaic (PV) -based electrical output from [Device Name] _____. Registration is therefore sought for [Device Name]_____ in the South African Domain. This Renewable Energy Declaration (or RED) is prepared with the intention of declaring that the installation fulfils the criteria set out in the European Energy Certification System (EECS) Principles and Rules of Operation the South African RECs Domain Protocol and the Consolidated PV facility protocol subsidiary document.

Period of validity: 3 (Three) years from date of registration on the CRD. After this time a RED will be re-submitted. Failure to do so will result in cessation of certificate issue for this Production Device. The criteria and the procedure for the RED may change over time.

A.) Name: _____

B.) CRD Account Number (To be assigned): 30X_____
C.) Location of device GPS Coordinates (Decimal degrees) _____ S _____ E.
D.) Location and detail of export and import meters: _____ S _____ E.

E.) Possible Sources of Fuel: Solar
F.) Type of generation technology: PV (Code 3)
G.) Installed Capacity: _____ kW
H.) Date of commissioning: _____
I.) Public support schemes: None

J.) It is hereby guaranteed that:

[Device Owner] _____ will not during the period of its Registration and for the same unit of electrical energy receive tradable certificates which represent the benefit of renewable electricity generation from both RECS and another similar system which can be exchanged for financial support

K.) A diagram showing the Production Device, the location of export meters used for metering its generation and of transformer substations at the plant site. If there are generating auxiliaries for the Production Device and/or import meters for metering their demand these shall be also shown on the diagram.
